Professional Summary

Results-driven Full Stack Developer and emerging QA Automation Engineer with a BS/MS in Computer Science in progress at Western Governors University. Recent graduate of a full stack software engineering bootcamp, skilled in JavaScript, React.js, Node.js, Express, SQL, and modern frontend frameworks. Founder of **Tuitupou Tech and Accounting Solutions**, currently developing an AI-powered lead generation agent for local businesses. Expanding expertise through dedicated studies in QA automation (Selenium, Playwright, Postman) and accounting, bringing a rare blend of technical proficiency, business acumen, and analytical rigor. Leverages 8+ years of leadership in high-pressure roles, combining problem-solving, cross-functional collaboration, and cultural intelligence to deliver high-quality, scalable software solutions. Eager to contribute to innovative teams that value technical excellence, adaptability, and continuous growth.
